***Double Patenting***

1. Claims 5-10 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 5-10 of U.S. Patent No. 6,633,779. Although the conflicting claims are not identical, they are not patentably distinct from each other because the differences between the claims of the application and the patent are considered to be obvious to the ordinarily skilled artisan.

***Allowable Subject Matter***

2. Claims 1-4 are allowed.

The terminal disclaimer submitted 12/11/03 is improper and is unacceptable for the following reasons:

The serial number of the application or the number of the patent that forms the basis for the double patenting rejection is missing or incorrect.

The serial number of this application is incorrect.

***Conclusion***

3. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
